

Ex : 10 Audit Planning and Issue/Findings Management**Date: 08.08.2026****Aim:**

To plan an audit and manage audit issues/findings in the Eramba GRC platform by identifying findings, assigning responsible persons, setting priorities, and tracking corrective actions.

Procedure:

- Login to Eramba
 - Open the Eramba dashboard in your browser.
 - Log in using your administrator account.
- Open Compliance Management
 - From the left-side menu, select Compliance Management.
 - Review the available compliance and audit-related options.
- Create/Select an Audit
 - Create a new audit or select an existing compliance assessment/audit.
 - Enter details such as:
 - Audit name
 - Audit scope
 - Description
 - Responsible person
 - Start and due dates
 - Applicable compliance requirements.
- Define Audit Scope
 - Identify the business units, assets, controls, policies, or processes that will be audited.
 - Select the relevant requirements and controls to be tested.
- Perform the Audit Assessment
 - Review each selected control or requirement.
 - Record the assessment result, such as:
 - Compliant
 - Partially Compliant

- Non-Compliant
 - Not Applicable
- Record Audit Findings/Issues
 - For controls that do not meet the required standard, create an issue/finding.
 - Enter:
 - Finding title
 - Description of the issue
 - Affected control/process
 - Risk or impact
 - Priority/severity
 - Responsible person.
- Create Corrective Action
 - Define the action required to resolve the finding.
 - Assign the action to the responsible person.
 - Set a target completion date.
- Track Findings
 - Monitor the status of each finding.
 - Findings can be tracked as Open, In Progress, Resolved/Closed, depending on the available workflow.
 - Review overdue findings and follow up with responsible persons.
- Review Audit Results
 - Check the audit dashboard/report.
 - Review the number of compliant controls, findings, open issues, and completed corrective actions.
- Close the Audit
- Verify that corrective actions have been completed.
- Update the findings and close the audit after the required evidence and remediation have been reviewed.
- Example Finding

Field	Example
Audit	Information Security Audit
Finding	Missing periodic access review
Description	User access rights are not reviewed periodically
Severity	High
Responsible Person	IT Security Manager
Corrective Action	Perform quarterly user-access review
Due Date	30-09-2026
Status	Open
